

# Sharia Considerations

## Sharia Considerations

The investment is a simple mudaraba structure wherein investors will be contributing money and Cur8 and Everest will be contributing primarily time.

Cur8 will be including standard sharia compliance considerations as part of any legal documentation signed with Everest as well as a requirement to consult with Cur8 on any edge cases that may arise.

Cur8 Capital is advised by Amanah Advisors, represented by Mufti Faraz Adam as well as the Shariyah Review Bureau.

Both have reviewed and are comfortable with this project.

## Amanah Advisors

Amanah Advisors is an independent, globally recognised Shariah advisory firm. Amanah is dedicated to offering wholesome end-to-end Shariah-compliant solutions by leveraging on its experience, global connections and expertise in the field.

## Sharia Empowered

Shariah compliance is not a tick box exercise at Cur8.

This investment embodies the essence of Islamic Finance as we are entering into a true risk/reward partnership.

Simultaneously we will be supporting the growth of Muslim owned businesses in the community and providing access for Muslim investors to an asset class that hasn't been accessible previously.

We are making this strategy work through simple asset leasing as opposed to exotic sharia wrapper or commodity murabaha solutions.

## Shariyah Review Bureau

Shariyah Review Bureau ("SRB") is a global Shar'i'a Advisor with scholarly presence in more than 15 countries from US, Europe, Africa, GCC and Asia. The breadth of geographical reach crossing national boundaries makes it one of few Shar'i'a consultancy bodies that can meet international business requirements.
